Problem I: VIP Passes

Base Program Constraints: 1s, 256 MB

Clear Reward: Access to Basement Floor

This challenge will not award any leaderboard points for completion.

Although the basement floor is typically strictly off-limits to guests, the Cardinal Casino offers **special VIP Passes** to especially **dedicated customers** so they can enjoy the exclusive amenities. Conveniently, Stanley is almost eligible for a VIP Pass (wait, what do you mean you've been here before??? Stanley???) He just needs to participate in **3 more activities** offered by the casino!

Solving all 3 side challenges offered on the Casino Floor will also grant an **access code** to the Casino Basement. Of course, if you have already exploited the `Security Backdoor`, there is no need for a VIP pass.

Note that submitting this challenge will NOT replace the point earned from solving `G` - it's best to leave as few traces as possible, after all!

Input

Your program does not need to read input.

Output

Output three lines, each one containing the promotion code earned by solving challenges on the Casino Floor.

Sample Test Cases

Sample 1 - Input

N/A

Sample 1 - Output

```
PUT YOUR CODE FROM D HERE
PUT YOUR CODE FROM E HERE
PUT YOUR CODE FROM F HERE
```

Notes

No points are awarded for solving this challenge.

To prevent penalties from being accumulated, all submissions to this problem will fail Test Case 3. Feedback will be provided through Test Case 2.

If you have difficulties submitting to this problem, contact support.
